

100 cm 5-Burner, Gas Oven Professional Series

PRO1005GGVLXE

Bring Italian design and precision into your kitchen with the Bertazzoni Professional 100cm wide and 60cm deep gas cooking range, "E" version. Cook like a pro on the five aluminum burners and cast iron contour grates, spaciouly laid out to accommodate pots of different sizes.

Crank up the heat to boil water, sear meat or cook with a wok using the power burner with dual ring flame, which boil water faster than any burner in their class. Delicately melt chocolate on the simmer burner. The double fan assisted gas oven is ideal for any kind of oven cooking, with the cavity perfectly visible thanks to the double inner light. Control cooking time with the full touch digital clock and timer.

Protect your house and your family with the 100% fail-safe thermocouple technology that immediately shuts off the flow of gas in case of a flame outage.

Clean in no time after cooking, thanks to the seamless one-piece stainless worktop with integrated spill-control dams and catalytic liners inside the oven cavity.

Designed and manufactured with pride by Bertazzoni in Italy.
